# BUILT TO LAST

As the benchmark tent for the tent rental industry, the Ideal Marquee is designed with durability, efficiency, portability and style in mind. Our design requires 50% fewer components to build, making it easy to maintain for years of use. It's the most versatile tent structure in our catalogue, offering a wide range of sizes and shapes starting from 10' Square to an impressive 40' Hexagon.

## AVAILABLE OPTIONS

### Walls

Solid / Mesh / Translucent (Solid Colours or Striped Patterns)  
Designer Window / French Arch Window / Zipper Closures

### Roof & Logos

Translucent Skylight Panels / Replacement Tops / Customized Corporate Logos

Stand out in a crowd by customizing your tent to include a rooftop logo panel or graphic wall. Prominently display your corporate message at trade shows or special events for maximum visibility and consumer impact. Any of our Standard and Custom tenting options can be fitted to include your company's brand.

### Accessories

Rain Gutters / Tie Down Ropes / Steel Stakes / Corner Braces / Leg Adjusters / Flag Mounts

## SIZES & SPECIFICATIONS

### Fabrics

Our products are manufactured from strong and durable fabrics, ensuring long life and serviceability. All fabrics are welded at Ideal's Vancouver Plant and are treated to resist mildew, ultra-violet degradation and abrasion. Standard fabric for marquees consists of 15-16 oz. opaque white vinyl certified by the California State Fire Marshall. Meets or exceeds NFPA 701 and UCL S109 Standards.

### Hardware

Aluminum fittings are foundry cast or manufactured exclusively in-house and matched with the strong 2½" extruded aluminum frames, galvanized cross cables and an extruded aluminum centre pole.

These tension frame structures consist of 2½" structural aluminum tubing; aluminum cast fittings, cast feet, centre poles and spikes. Standard side height is 8' and 9'-3". We also carry leg extensions for increased height. Certified engineered drawings available.

## STANDARD SIZES

# THINK BIG

When size really does matter, trust the Ideal Mega Frame Canopy Tent to protect your event or equipment from the elements. The Mega Frame is 5 times stronger than traditional 2" tube structures and is able to use either standard tent pins or heavy-duty bolts for long term installations.

## AVAILABLE OPTIONS

### Walls

Solid / Mesh / Translucent (Solid Colours or Striped Patterns)  
Designer Window / French Arch Window / Zipper Closures

### Roof & Logos

Translucent Skylight Panels / Replacement Tops / Customized Corporate Logos

Stand out in a crowd by customizing your tent to include a rooftop logo panel or graphic wall. Prominently display your corporate message at trade shows or special events for maximum visibility and consumer impact. Any of our Standard and Custom tenting options can be fitted to include your company's brand.

### Accessories

Rain Gutters / Tie Down Ropes / Steel Stakes / Corner Braces / Leg Adjusters / Flag Mounts

## SIZES & SPECIFICATIONS

### Fabrics

Our products are manufactured from strong and durable fabrics, ensuring long life and serviceability. All materials are welded at Ideal's Vancouver Plant from 17-18 oz. per sq. yd. vinyl laminate, are flame retardant and come treated to resist mildew, ultra-violet degradation and abrasion. Covers are built from a 2-piece start-up point to allow for expansion. Tops are shipped in individual storage bags.

### Hardware

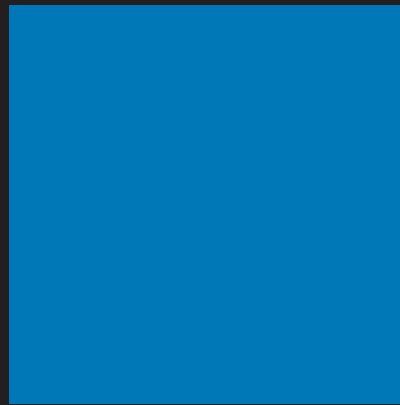

Ideal Heavy-Duty Extrusion for Mega Tube System is matched with upper round posts that will fit over most standard connections. Bottom open channels allow easy connection of brace bars and other components. All fittings are manufactured and assembled in-house.

Our frame structures consist of 2½" structural aluminum tubing; aluminum cast fittings, cast feet, centre poles and spikes. Standard side height is 8' and 9'-3".

## STANDARD SIZES
